

TrueSense

Beautiful – In the TrueSense of the Word

TrueSense

Beautiful – In the TrueSense of the Word

Delany Products is proud to introduce our newest sensor operated, hands-free flush valve for water closets and urinals. The TrueSense uses state-of-the-art sensor technology that allows TrueSense to be offered in either hardwired or battery powered versions.

- Sleek designer chrome plated wall plates add style and beauty to any commercial restroom.
- Low 9V DC system means minimal need for an electrician saving time, money, and headaches.
- With either 120V 60Hz or 220V 50Hz operation, it can be used anywhere in the world.
- First ever electronic override button that provides a full flush.
- Optional - True Mechanical Override button.

U1851 Urinal

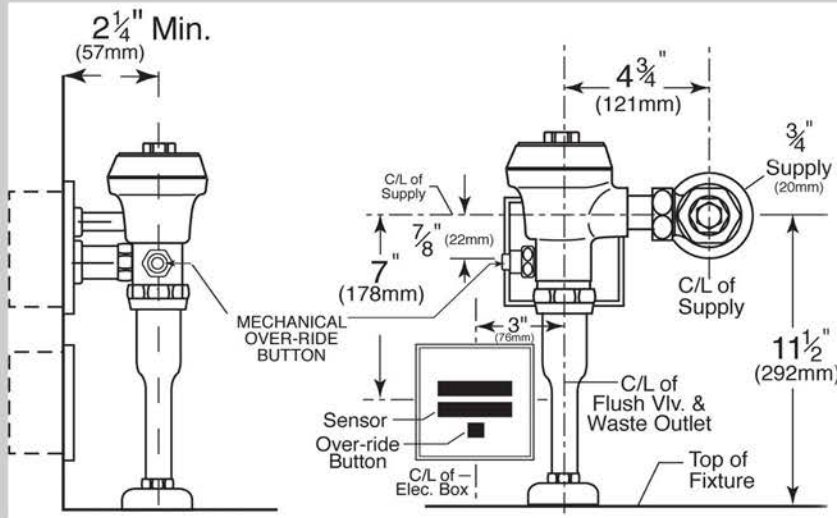

The TrueSense uses Delany's Flushboy Ultra. The Ultra comes with a small upper chamber for excellent performance and includes other key Delany Differences like the replaceable Main Valve Seat and our proprietary Regulation Screw, allowing for *"true-in-the-field" water conservation.*

Available in 3 Different Power Options:

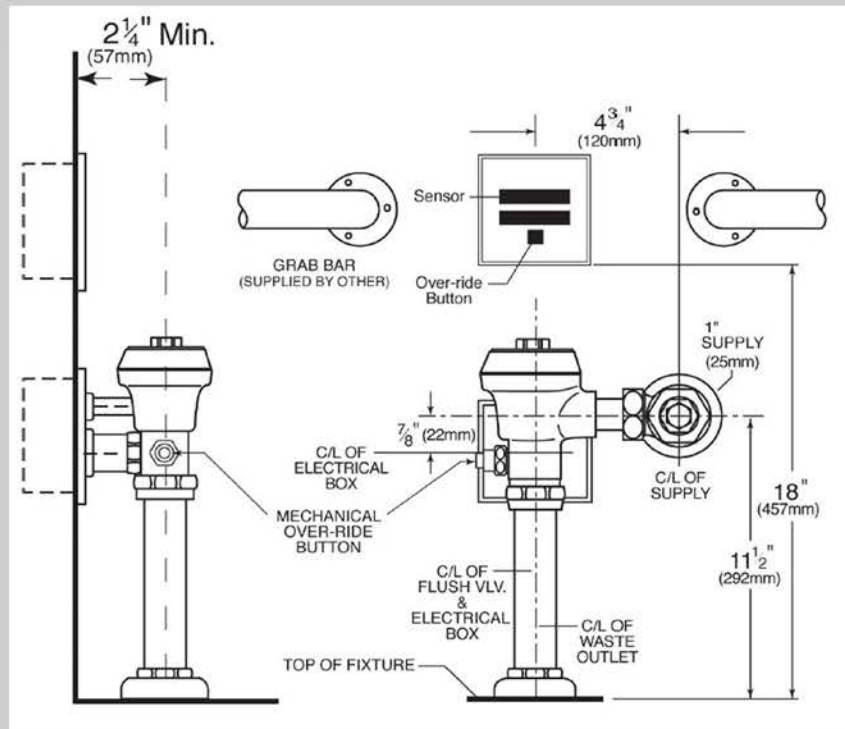

- Plug-in Transformer
- Hardwired Transformer
- Battery Version – perfect for renovations where new wiring is challenging
